

Calling all young scientists to the Moorestown Science Fair!

April 17, 2019

6:30 PM in the UES Cafeteria

Plan a science project, research, experiment, record results, draw conclusions and display your project at this fun, non-competitive event!

Not sure how to start a science project?

Check out these resources:

- [The Moorestown Science Fair – Getting Started](#)
- [Science Explorers \(A Resource for K-5 Students\)](#)

Need some project ideas?

Ask your school librarian for a book about Science Fair projects, or check out these cool websites (linked below):

- [Science Fair Projects World](#)
- [Science Buddies.com \(Helps You Find a Topic\)](#)
- [Science Project.com \(More Ideas!\)](#)

REGISTER YOUR PROJECT FOR THE EVENT

**REGISTRATION DEADLINE:
April 7, 2019**

Use this Google Form to Register:

[Moorestown Science Fair 2019 - Sign Up Form](#)

Volunteer “Scholars” Needed

Event “Scholars” will visit with our young scientists during the fair and ask them questions about their projects. Students will explain what they did and what they learned.

NO EXPERIENCE with fairs or a background in science is needed! You will be given script of questions to ask each student. It’s that simple.

Consider serving as a “scholar” from our community by donating your time to visiting projects and speaking with student presenters at the Science Fair!
