Course Description

The Fifth Grade Choral Program at the Moorestown Upper Elementary School is designed to develop in each student a respect for and understanding of quality choral music. The course instills an appreciation and basic understanding of music representing different composers, period, styles and cultures. The performance of this music is the goal of both the singer and director, bringing to both the artists and the audience an exciting and memorable aesthetic experience. Building upon work on the elementary level and, at the same time, preparing for middle school study, the program focuses on major musical/choral concepts enabling the young singer to develop his/her natural instrument to its fullest potential. Fundamentals of music theory will also be taught and reviewed. Including, but not limited to: rhythmic and melodic note reading, time and key signatures, intervals, sight reading and solfege. Each student will participate in one mandatory choral concert during the school year. In addition, and in conjunction with the mission of the visual and performing arts department, the Fifth Grade Choral Program presents a healthy learning environment for upper elementary school students. Classes enhance critical thinking and decision-making skills, develop feelings of maturity and self-confidence and overall help students to develop a positive attitude and self image.

Fundamental Concepts

- Vocal Production and Breath Support
- Rhythm
- Melody
